

Tennant S8

The Tennant S8 is a highly efficient sweeper! The three-wheel turning system and easy controls are user-friendly for low operator fatigue. The front side brush and the 51cm main brush sweeps up nearly 35L of litter and debris into its large hopper.

The hopper pops out easily for quick emptying. This model comes standard with an on-board charger. A 12V battery provides cordless operation up to four hours. Remarkably quiet for noise-sensitive environments.

Features

- A combined direct and over-throw sweeping system
- Roto-moulded covers
- Side brush
- Large, removable debris hopper
- High efficiency intake impeller
- On-board charger
- Battery powered

Benefits

- For efficient sweeping results
- Robust construction resisting strong impact
- To sweep edges and along hard-to-reach areas
- Increases productivity by extending sweeping cycles
- Optimal dust control and high filtration performance
- Increases ease of operation and flexibility
- For use in noise-sensitive environments, easy to maintain

Applications

- Retail facilities
- Small warehouses
- Transport sector
- Gas stations
- Parking areas
- Contract cleaning

Standard on board charger

Strong roto-moulded covers

Easy to operate
